Subject: Specialized Firearm Asset Solutions for Estates, Probate, and Bankruptcy

As a legal professional managing estates, conservatorship, probates, bankruptcies, or domestic dissolutions, you frequently encounter non-standard physical assets that require strict regulatory compliance, accurate valuations, and swift liquidation. Firearms are among the most complex of these assets.

Sentinel Assets LLC, a federally licensed firearms dealer, provides a comprehensive, legally compliant solution tailored specifically for law firms and estate executors. We take the burden of firearm inventory, valuation, and disposal off your desk, ensuring total peace of mind and maximum value for your clients.

We support your practice through three core services:

- **Appraisals:** Accurate, market-reflective valuations for estate planning, tax purposes, probate filings, or equitable distribution.
- **Auctions:** Consignment services designed to maximize asset recovery through competitive bidding, reaching qualified and vetted buyers.
- **Direct Purchases:** Immediate cash buyouts for estates or individuals looking for a fast, hassle-free liquidation of single pieces or entire collections.

Firearm logistics carry significant legal liabilities. Our processes ensure that all transfers, storage, and sales strictly adhere to federal, state, and local regulations, completely mitigating risk for your firm and the estates you represent.

Whether you are currently handling an estate with a complex collection or simply want to keep a reliable partner on file for future cases, I would welcome the opportunity to discuss how we can assist your firm.

Thank you for your time and consideration.

Sincerely,

Mike Bogdanski
